SAN MARCOS, HAYS COUNTY, TEXAS, THURSDAY, JUNE 28, 1888.

TO ADVERTISERS. The Free Press Recognized by Geo. P. Rowell & Co., as Ahead as an Advertising Medium.

The well known advertising agency of Geo.P.Rowell & Co., of New York City, have issued an annual Newspaper Directory for thirty years or more, and these publications have been generally recognized as authority us to the matter of newspaper circulation. Inthe regular issues of the Directory they have included all the newspapers published in the United States and Canada. Quite recently, however, they have issued a condensed list. It gives only the best newspapers as advertising mediums, and hence is practically better, because more convenient, than their larger Directory. Four-fifths of the newspapers of the United States are "counted out" by intelligent advertisers, who only want to know the best, Hence the value of the work under notice. The publishers in the preface well say:

the Faue Pages is given by this book (see page 158) as the advertising medium of San Marcos and Hays county, it being the only one on the list. We respectfully invite the attention of advertisers, both at home and sbroad, to this fact.

The Mugwumps for Cleveland.

The indications are that Mr. Cleveland will receive a larger independent Mid the brown-haired and the black-haired or "mugwump" vote this year than he did in 1884. The New York Times has already declared for the St. Louis ticket. So has the Now York Evening Post. The attitude of Harper's Weekly is very friendly to the president, and it will very proba-bly give him its support. These great journals doubtless reflect the great journals doubtless reflect the views of a majority of the independents of 1884, and also of thousands of men who voted for Blaine, but who have been so much impressed with the wisdom, vigor and honesty of the wisdom, vigor and honesty of the many as sheaf, "I have cut in the years gone past; and many and many a sheaf these arms, On the harvest wains have cast.

Chamberlain's Colie, Cholera and Diarrhoa Remedy has cured thousands or cases, that were considered hopeless, it has cured them after physicians have failed to relieve, it has cured them after other medicines had been tried without bonefit, it has even cured them after they had become unconcious. It can always be depended upon, and should be kept at hand, by every mother or small children. When children are teething, the diarrhoa can not be checked permanently, as the same cause tha produced it will bring it on again, but it can and should be controlled by giving Chamberlain's Colie, Cholera and Diarrhoa Remedy, as the case may require. Then when the child is through teething, the diarrhoa may be effectually checked. This remedy has been the sole reliance of thousands of mothers throughout the west for ever fifteen years, and its cures have shown it to be the best and most reliable remedy ever produced for the purposes. When reduced with cold water and sweetened, it is pleasant to take. Many children like it. It is put up in 25 cent, 50 cent and 1 dollar bottles. My child, seven months old, was taken sick with summer complaint. I called on our family physician and procured medicine, and used it for nearly three weeks but still the child continued to get worse. I was persuaded to try Chamberlain's Colic, Cholera and Diarrhea Remedy, and inside of four days, we had the child's bowels regulated and in a short time it was well. Since that time I always keep a bottle of the preparation in my house. We feel satisfied that Chamberlain's Colic, Cholera and Diarrhea Remedy is the best medicine we handle for all diseases of the bowels; we have given it a thorough test. A member of our family, a little girl, had been very sick with bowel complaint, we had the idoctor to see her twice, after giving her what medicine the doctor left and seeing that she would have to have more we concluded to try Chamberlain's. From the first dose she commenced to improve and soon recovered.
